

Introduced by Senator Calderon

February 12, 1997

An act to amend Section 10127.9 of the Insurance Code, relating to insurance.

LEGISLATIVE COUNSEL'S DIGEST

SB 343, as introduced, Calderon. Insurance: cancellation.

Existing law provides that an owner of a policy of life insurance may cancel the policy during the cancellation period, and provides that cancellation shall void the policy from the beginning, and the parties shall be in the same position as if no policy had been issued. Existing law requires all premiums paid and any policy fee paid for the policy shall be refunded by the insurer to the owner within 30 days from the date that the insurer is notified that the insured has canceled the policy.

However, existing law provides for a policy issued to a senior citizen, in the case of variable annuity contracts, variable life insurance contracts, and modified guaranteed contracts, return of the contract during the cancellation period shall entitle the owner to a refund of account value and any policy fee paid for the policy.

This bill would generally provide that, in the case of variable annuity contracts, variable life insurance contracts, and modified guaranteed contracts, return of the contract during the cancellation period shall entitle the owner to a refund of account value and any policy fee paid for the policy.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.

The people of the State of California do enact as follows:
